

Read and follow all instructions on box or packed with products before using.

- a. Open the zipper on the gloves, plug the cable in the pocket to the batteries. Close the zipper.
- b. Long press the button to power on. The button light will start changing the color from red to blue then green and finally stop at red.
- c. Short press the button to have the heat set. Red indicates higher heat, Blue indicates medium heat, Green indicates low heat.
- d. Long press the button to power off. Without any operation, the gloves will turn off automatically in one hour.
- e. Plug two batteries to the adapter for recharging. It takes around 5-6 hours to full charge the batteries.

Cautions

- ◆ Keep batteries away from children.
- ◆ Do not open, modify, disassemble the battery pack.
